The New Iliad.

BOOK I. Achilles wrath—to Greece the direful spring Of wees unnumbered—was a trifling thing Compared with these everts of modern days, When Pilisbury strove 'gainst Mackey's ways,
When Afric's sons with scalawags engage,
And carpet-baguers sway the scenic stage,
While noisome odors fill the Council den
And riot rules, with Potter's loud amen!

Great Jove looked on from his imperial height, With clouded brow, i dignant at the sight:
"Fast in the chains of bondage did I find
"The Negro, and removed him from his kind.
"To Ohneitan pagaus I the mission gave
"The rude barb rian from his tate to save,
"Sped the bage stap to Afric's burning shore
"And made them slaves—but cannibals no more.
"Who dated subvert high Heaven's most just decree?
"Who loosed the chain, and set the 'ring-tailed' free?
"From Apes and huge Gorillas was he ta'en.

"From Apes and huge Gorillas was he ta'en, "From Apes and huge Gorillas was he ta'en,
"And made to till the Southern truitful plain;
"On high Olympus did the Gods approve
"A mission mercifu, and foll of love."
Thus Jove—then seizing with his mighty hand
A thunderbols to blast to umbia's 1 and,
When Collins's peech, and Harrow's rigmarole,
Confused the God, and did his rage control:
"With subtle purpose now the world I'll rule,
"I'll make the negro wise, the white man fool;
"Thus shall revengeful Heaven assert its power
"And loose the turies in this evi! hour,
"With rage it flame the carpetst agger's breast
"And race 'gainst race this impious quarrel test."

Augusts. Weekly Cotton Market.

Bellian of Bellian Augusta. Weekly Cotton Market.

AUGUSTA, hay 14 — COTTON—There has been a continued fair dem nd durin the week in der review for cotton, but confined almost exclusively to midding and the better grades, lower qualities being entirely neglected. To make sales low prices had to be accepted. Quo ations on a basis of Liverpool midding were sueedy, varying from 26321½. To day prices at a sale e firmer unders more general demand, but buyers are still molined to the better grades in making urchases. Liverpool midding fi m at 26½0; sales of the week 1768 bales; receipts 528 bales; receipts last season, from September 1, 1867, to May 11, 1868, were 16,825 bales; for the present season to date, 91,559 bales; difference in favor last account 11,266 bales.

shadow of a prospect for the cotton that is held in our market for higher prices.

A review of the leading markets of the Northern States for the past month will show a great weakness on the part of holders. A month ago, when gold and selling at 33½ 33½ per cutt, the staple commanded the same price as it does now, we en gold is worth 38. This, no doubt, has been caused by the gloomy accounts of the bad state of trade in the manufacturing districts of England.

38 This, no doubt, has been cau-ed by the gloomy accounts of the bad state of trade in the manufacturing districts of England.

At the close of the week we must report a dull and irregular market, prices showing a downward tendency. Although Liverpool closes urm, and gold has advance 1 ½ 1½ & cent. our market remains unchanged. We quote: Midding 27c; low midding 26 ½ c; good ordinary 26 ½ c.

EA ISLANDS—Are in good and general demand, and the sales of the week have been considerable, leaving only a moderate stock, with very little desirable cot on in it from which to select. With a small stock and insignificant receipts, the season may be considered as almost closed for the staple. The following quotations are well sustained: Common Floridas and Georgias 50a55; medium Floridas 60; good Floridas 65.70; fine Floridas 80.

The receipts at the sport since way 6th, amount to 4916 bales upland and 11 bales sea island, of which tailroad. 4 from landings on the Savannah River, and 11 tales sea island from Florida and the coast. The ex orts for the same time have been 1765 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland and 206 bales sea island, of which 1134 bales upland to Philadeichia.

Analysis of Rhodes' Standard Superphosphate of Lime. Equal to Bone Phosphate......34.99 Total Phosphates.......54.77 Lime with Phosphoric Acid......29.68

The above analysis indicates a Manurial Superphosphate of Lime of the highest grade ordinarily found in the American market. Its large amount of Soluble Phosphoric Acid supplies an active nutriment for the development and maturity of the fruitage. The Sulphuric Acid which it contains, by chemical affinity with the elements of most soils, contribute to its Fertilizing Properties. To show its best effects, this superphosphate should be applied under and in contact with the Seed, and with a moderately shallow covering of soil.

G. H. WILLIAMS, Assistant Chemist.
